Exhibitor Lead Generation Flow

1. Login Credentials

Exhibitor receives login credentials to access the web app.

2. Login to Web App

Exhibitor logs in to the web app using the provided credentials.

3. Redirection to Lead Generation

Upon successful login, the exhibitor is redirected to the Lead Generation page.

4. Camera Activation

The camera opens automatically on the Lead Generation page.

5. QR Code Scanning

Exhibitor scans visitor QR codes using the camera.

6. Data Storage

Scanned visitor data is saved in the database.

7. Download Option

Exhibitor can download the stored data at any time in Excel format by clicking the download button.

Login Screen Mobile View

The image shows a mobile browser interface displaying the SEMICON INDIA login screen. The browser's address bar shows the URL 'mmactiv.com/semicon'. The login form is centered on a white background with a purple gradient header. It features the SEMICON INDIA logo, a 'User name' label above a text input field containing 'User Name', a 'Password' label above a password input field, and a black 'Sign In' button at the bottom.
